Station Madras, *Dated the* 19th September 19 38.
26.

From (Name) Diwan Bahadur Dr. B.Sundara Raj, M.A.,Ph.D.,
(Designation) Director of Fisheries.

To The Secretary to the Government of Madras,
Development Department.

Sir,

I have the honour to report on the difficulties that are experienced in continuing the Fisheries School at Mangalore in the Sri Gnanodaya Samaj building in which it is at present housed. In the course of his remarks on the annual inspection report by the Junior Deputy Inspector of Schools, Mangalore, the District Educational Officer, South Kanara pointed out in 1934 that the Sri Gnanodaya Fisheries School was in urgent need of a urinal. The Director of Public Instruction endorsing these remarks hoped that the school would be provided with a urinal urgently. Sri B.M. Thingalaya, Secretary of the Sri Gnanodaya Samaj

(which constructed the building with the aid of a grant from the Government in 1917 (G.O.No. 363 Home (Education) dated 15-3-1917)) provided the school with a urinal but it was found that it did not conform to sanitary requirements. The Municipal Health Officer who inspected the urinal stated that it was not possible to improve it and that it had to be built afresh. The Executive Engineer, West Coast Division, was then addressed for an estimate for constructing a urinal and one for Rs.80/- was received from him. But Sri Thingalaya expressed his inability to construct the urinal in conformity with the plan prepared by the Executive Engineer and approved by the Municipal Health Officer. The objection to the construction of the proposed urinal is stated to be its proximity to the kitchen of a neighbouring house and to the pulpit of the prayer hall of the Samaj Mandir. It was to avoid an unhygienic urinal that the Health Officer and the Executive Engineer were consulted and a proper plan and estimate obtained. To settle the matter I inspected it in March 1937 and Sri Thingalaya agreed to extend the pipe line and lead it into a closed cement cistern close to the road which could be periodically emptied by the Municipal scavenger. The Health Officer also agreed to the suggested improvement but now the Assistant Director of Fisheries reports that Sri Thingalaya has declined to effect the suggested improvement. A copy of Sri Thingalaya's letter dated 19-7-37 is enclosed. It is reported that the arrangement proposed by Sri Thingalaya in the letter will not remove the difficulty.

2. While Sri Thingalaya is unwilling to construct a urinal according to the sanitary requirements, various other difficulties have also arisen. In 1933 Sri Thingalaya wrote suggesting change of school hours. This was, however, not agreed to, as the parents of the pupils of the school who are the chief people concerned had not complained of the existing times. This move on the part of Sri Thingalaya is reported to have been made with the object of affording hostel facilities in the school hall for certain college students of the

Mogaveera community. In 1935, the Headmaster of the school reported that the students and members of the Samaj who reside in the building make free use of the basin, buckets and the copper pots and also that the school benches are used at nights for sleeping purposes. In July last Sri Thingalaya asked for permission to use the benches and blackboards of the school for a night school to be opened by the Samaj A copy of his letter and an extract from the Inspector's report on the subject are enclosed. The Secretary of the Samaj has not, it is reported, responded to the request of the Inspector of Fisheries for allowing the use of the adjoining wings of the building for holding classes to provide additional accommodation for the school - vide copy of his letter dated 18-10-37 enclosed. Copies of a letter dated 30-10-37 from the Headmaster of the school, the Inspector's endorsement thereon dated 3-11-37 and of the Headmaster's further report dated 8-11-37 are also enclosed.

3. The housing of the school in the Temperance hall constructed by the Mogear fishermen with Government aid is thus causing great inconvenience. In pursuance of G.O.No. 363 Home (Education) dated 15-3-1917 a grant-in-aid of Rs.750/- was sanctioned by the Director of Public Instruction in his Proceedings R.C.No.100/-17 dated 22-11-1917, and a further grant of Rs.1595/- was made in his Proceedings R.C.No.100/17 dated 15-11-1920, copy enclosed. The school appears to have been first started by the Sri Gnanodaya Samaj and was then taken over by this department. The taking over of the school was a favour done to the Samaj.

4. If the Samaj is prepared to hand over the entire building to Government it is suggested to them that the Government may purchase the building for the difference between the present market value and the grant paid by Government. A copy of the reply received from the

4

Secretary of the Samaj is enclosed. He demands payment of rent in case the school is to be allowed the use of the wings of the hall and payment of half the expenses for annual white-washing and repairs. He seems to claim the whole building as the sole property of the Samaj. The inspecting officers of the Education Department are urging for the provision of additional accommodation for the school. In view of this and the attitude of the Secretary of the Samaj it seems desirable to shift the school to a more suitable building in a less congested area.

I have the honour to be,

Sir,

Your most obedient servant,

C.R. Natesa Pillai

for Director of Fisheries.

Copy of Sri Thingalayya's letter dated 19-7-1937.

With reference to your Endt. No. D.Dis. 1781-F/34 dated 22-4-1937, I am informed to construct the cemented cistern to receive the urine and wash water after obtaining the municipal permission. The Municipal Health Officer visited the place and personally told me that only urine could be collected and removed by the municipal scavengers and he objected to the collection and removal of the urine with wash water.

In case only urine is collected and though it is covered with shutters, the bad smell of the urine will spread and it will be nuisance as the proposed urinal cistern is very close to my office as well as to the school.

In such circumstances, I therefore suggest that the urine with wash water as they come through the pipes may be let to the garden in the vicinity as is now without being collected.

By this present existing arrangement there will be no smell, nor dirt nor any insanitary state spreading in the surroundings, in case anything happens otherwise proper care will be taken about its sanitary conditions.

Copy of letter dated 7th July 1937 from the Secretary of the Sri Gnanodaya Samaj, Mangalore.

I beg to bring to your kind notice that some of our young men of Fishermen community who cannot come to the day school desire to study in Night school, if it is opened, and so we intend to start a Night school in the Samaj Hall at our cost.

We therefore request that you may be kindly pleased to permit us to use the benches and the blackboards which are in the day school belonging to your department.

Copy

Copy of Mangalore Inspector's letter dated 21-8-1937 (extract).

I submit for favour of your perusal copy of a report dated 11-7-1937 received from the Headmaster, Sri Gnanodaya school. On 5-8-1937, the Headmaster submitted another report to the effect that the arm of a low bench was broken. When I asked the Headmaster to state how the damage to the bench occurred, he submitted the following reply.

"Every Sunday Mr. B.M. Thingalayya is holding 'Homah' of the Araya Samaj in this school. Youths and boys of the Samaj are gathering in the school for these 'Homas'. They use school furniture for these homas. I came to know that the arm of that bench was broken by a boy at that time. The cost of its repair is nearly six annas."

In the circumstances stated by the Headmaster, I consider it inadvisable to allow the Samaj the use of the Government articles.

Copy of letter No.957 dated the 18th October 1937 from the Secretary, Sri Gnanodaya Samaj to the Inspector of Fisheries, Mangalore.

With reference to your letter No. 195/37 dated 19-7-37, I have to inform you that the offices of Sri Gnanodaya Samaj and the South Kanara Mogaveera Mahajana Sangha are housed in the left wing of the Sri Gnanodaya Samaj Mandir. The right wing is used as library and a public free reading room.

If we were to hand over the two wings of the building for the use of the school we were to occupy a rented building for housing the above mentioned offices and reading room. In case the Department is willing to pay the rent that we have to pay for the rented building, to us we have no objection to part with the wings of the Mandir.

As

As regards the white washing of the building I beg to bring to your kind notice that the whole building is being white washed once a year. As the building is located very close to the road the walls of the building become shabby on account of the dust nuisance. I quite agree with your suggestion to have the walls very deeply white washed with colours. But we have all along these years let out the building free of rent to the department and hence in case the department is prepared to bear half of the expenses incurred for the annual white-washing and petty repairs we are willing to accept your suggestion.

Copy of Ref. No.66/37 dated 30-10-1937 from the Headmaster, Gnanodaya school, to the Inspector of Fisheries Mangalore.

In continuation of my report dated 11-7-1937 I beg to submit that since about fifteen days, the members of the Arya Yuvak Sangha have begun to practise dramas inside the school house from 9 P.M. to 12 P.M. every day. While practising dramas they make use of the school furniture. Most of the benches have been damaged and if this state of affairs continue most of the benches would become unfit for use.

I further beg to add that one of the wall pictures is missing. When I enquired with Mr. H.K. Thingalaya as to what became of the picture he told that he would search for it. After a few days I again asked him for the picture. He replied that as he could not get it, the matter may be reported to the Inspector of Fisheries.

Moreover all the furniture of the Gnanodaya Samaj has been stored in the school hall and hence the pupils find it very inconvenient to move about in their classes.

Under

Under these circumstances I request you that orders may be passed to have the furniture of Gnanodaya Samaj removed from the school hall and to have the school locked after class hours.

Endorsement No.447/37 dated 3-11-1937 of the Inspector of Fisheries, Mangalore.

Copy submitted to the Assistant Director of Fisheries (Coast) in continuation of my report Ref. No.477/37 dated 21-8-1937.

2. I consider it undesirable to allow the present unsatisfactory state of affairs to continue any longer. The Samaj authorities evidently seem to think that they can do anything because the building is given free of rent. Unless the school hall is kept entirely at our disposal, the situation is not likely to improve. If the authorities are reluctant to do this, it is better we go in for a rented building. The Secretary may be addressed in the matter and he may be requested not to meddle with the school furniture and cause damage to them. I am asking the Headmaster to report the extent of the damage done to the benches and the name and price of the missing wall picture and shall submit a further report on receipt of his reply.

VI

Copy of report No.68/37 dated 8-11-1937 from the Headmaster, Sri Gnanodaya school.

VII

With reference to your memo. No.447/37 dated 4-11-37 I beg to submit a statement showing the number and the extent of damages done to the benches.

1. Low bench with back (No.11) one of the legs broken.
2. " (No.42) legs and back have become loose and are shaking.
3. " (No.43) back broken.
4. " (No.44) Back loose and shaking.

5. Low bench with back (No.45) back and legs broken.
6. " No.46) back loose and shaking.
7. " No.48) do.
8. High back bench with arms (No.26) one of the arms shaking.
9. " (No.35) back and one of the arms broken.
10. " (No.39) both the arms broke
11. " (No.41) both the arms loose and shaking.

The price of the missing wall picture (citron) is annas six (0-6-0).

Copy of Proceedings of the Ag. Director of Public Instruction, the Hon'ble Mr. R.G. Grieve, M.A., R.C.No. 100/17 dated 15th November, 1920.

Under rule 53 of the Grant-in-Aid Code, the Director sanctions and authorizes payment of a further grant of Rs.1,595 (Rupees one thousand five hundred and ninety five) towards the cost of constructing a Temperance hall for the use of the "Fisherman's Temperance Society", Mangalore.

2. The grant is debitable to the detailed head "Building grants" under "Grant-in-Aid" - Non-European schools"

3. A bill should be prepared in the prescribed form and submitted to the Director for countersignature immediately.

10

PROCEEDINGS OF THE DIRECTOR OF PUBLIC INSTRUCTION, MADRAS,

R.C.No. 100/17, dated the 22nd November 1917.

READ - Proceedings RC.No.100/17 dated 23rd March 1917; and

Endorsement of the Inspector of Schools, IX Circle, RC. No.132-SC/17 dated 14th November 1917.

Under Rule 53 of the Grant-in-Aid Code, theDirector sanctions and authorizes payment of an advance of Rs.750/- (Rupees seven hundred and fifty only) towards the cost of constructing a Temperance Hall for the use of the "Fishermen's Temperance Society", Mangalore.

2. The grant is debitable to the detailed head "Grants for school buildings" under "Grants in Aid" - Non-European Schools"

3. A bill should be prepared in the enclosed form and submitted to the Director for countersignature immediately.

4. The question of additional grant will be considered after the building is completed and on receipt of vouchers.

To The Secretary to the Government of Madras,

Development Department.

Sir,

Ref:Development Memorandum No.25873-I/38-2 dated 8th November 1938.

The Inspector of Fisheries,Mangalore, reports that he made a search for a more suitable building for housing the Sri Gnanodaya Fisheries school at Hoige and that there is none among the existing buildings suitable for locating the school.

2. It is reported that one Mrs. Rodrigues, a rich land-lady at Mangalore, had some vacant land about 1/2 an acre in extent (reclaimed from the river) quite suitable as a site

for a school building. But, the vacant site together with the buildings in the adjacent compound are understood to have been leased to a soap manufacturing company. This is the only private land suitable as a school site.

3. A few yards to the south of the Sri Gnanodaya Mandir lies the Government Marine yard compound in which, it is reported, there is ample un-utilized space close to the entrance. If permission can be obtained to put up a school building in the compound just near the entrance gate, the difficulty of finding a suitable site for the school will be solved. If this is not possible, the other alternative is to acquire the vacant site owned by Mrs. Rodrigues by applying the Land Acquisition Act. I solicit the orders of Government in the matter.

4. There is no likelihood of any expenditure being incurred in the current year on the proposal.

I have the honour to be,

Sir,

Your most obedient servant,

B. Sundara Raj

Director of Fisheries.

25.5.39:

Copy of Mangalore Inspector's letter No.504/39 dated 28-4-1939.

I enclose herewith copies of two reports No.80/39 dated 15-4-1939 and 81/39 dated 17-4-1939 received from the Headmaster, Srignanodaya school. Unless early action to shift the school from the Sri Gnanodaya x hall is taken the damages to school furniture, teaching appliances etc. reported by the Headmaster cannot be prevented.

Copy of Headmaster's report No.80/39 dated 15-4-39.

I beg to report that on 14-4-39 ax the Samaj people celebrated the Yugadi festival in the school hall. On 15-4-39 I came to school and saw all the furniture, map rack mandoo etc. were in disorder. Some were kept outside the verandaa. One man was turning the Mandoo to a proper position. I asked the man if the Mandoo is broken while drawing, who will stand responsible for the damage? He told me that they were working at the instruction of Mr. Monappa Thingalaya. One upper bar of a back bench has been damaged. Two maps were torn. I, with the help of the students kept the benches etc. in order.

Every day the students of other schools who are boarding at Mr.Thingalaya's house use the benches for sleeping and in the morning they go away leaving the benches as there are. The benches should be kept by us in order.

In conclusion, I beg to inform that if this system continues it is very difficult on my part to stand responsible for the Government articles of the school.

*****

Copy of Headmaster's report No.81/39 dated 17-4-39.

I beg to report that the one side frame of the management board has been damaged due to fall. When I enquired with the students, they told me that the board fell down from its stand while erecting the stage for

the drama on 13-4-39. The Secretary of the Samaj ~~xx~~ had not informed me about their erecting a stage and playing a drama. If intimated I would have kept the Government articles in a separate place safely.

Further I beg to add a loosened leg of a bench which was kept separately for the repairs is not to be seen and it was missing.

F. J. Stewart Esq., C.I.E., M.C., I.C.S.,
Commissioner of Land Revenue,

Read the following:-

Government, Revenue Department, Memorandum No.1837 F/39-1 dated 12th April 1939.
Government, Revenue Department, ~~Memorandum~~ Endorsement No.1837 F/39-2 dated 1st June 1939.
Letter from ~~EXEXMMMXXEMXX~~ Sri Diwan Bahadur M.V.Vellodi, B.A., Collector of South Kanara, D.Dis.No.3158/39 dated 18th July 1939.

Board's Reference B.No.1909/39-1 dated 29-4-39 and No.B.1909/39-2 dated 20-6-39.

The site to which the Fisheries Department wants to shift the Fisheries School forms part of R.S.No.51/1 (T.S.No.8-3-52/1) of Mangalore Thota village within the Mangalore Municipality. R.S.No.51/1 is a portion of the Government Marine Yard (coir godown compound) and measures 1.57 acres in extent. It stands registered as poramboke.

The

The Inspector of Fisheries, Mangalore, has pointed out the site required for the school. It is marked X in the enclosed sketch and it measures .25 cents in extent. The Port Officer, Mangalore has no objection to this portion being utilised for the use of the school provided the Fisheries Department puts up a wall of laterite stones, not less than 6 ft. high, along the western and southern sides of the plot and keeps an entrance gate either at M or at N as marked in the sketch and also maintains the wall. The Inspector of Fisheries agrees to these conditions. I do not, therefore, see any objection to the proposal of the Director of Fisheries to shift the school to the site in question.

REFERENCE.-

Submitted to the Government.

2. The Board agrees with the Collector and sees no objection to the proposal of the Director of Fisheries to shift the Fisheries School to R.S.No.51/1 of Mangalore Thota village subject to the conditions specified by the Port Officer, Mangalore to which the Inspector of Fisheries has agreed.

Dec 04

Fisheries Sri Pranodaya
School - Shifting

(From the D.F. No. 2698 of 3.7.4 dt 26.9.38)

To A.S.

The Director of Fisheries has submitted a report on the difficulties that have arisen in regard to the Continuance of the Sri Pranodaya Fisheries School in its present building and states that it seems desirable to shift the school to some suitable building in a less Congested area

2. The Sri Pranodaya Elementary Day School was originally Conducted by the Sri Pranodaya Samaj and it was taken over by the Fisheries Dept. in Dec. 1919. The School is housed in the Samaj Temperance Hall, free of rent. The Director reports that the Secretary of the Samaj is unwilling to Construct a urinal according to the sanitary requirements, which was pointed out by the Education Dept. as essential

f. 1 of
fo. 1635 Dec (5)

for the school. It is also reported that the Secretary did not agree to allow the use of adjoining wings of the building for holding classes to provide additional accommodation for the school, except on payment of rent. It is further reported that the Samaj has been creating some other difficulties also and has been responsible for damages to certain articles of the school It thus appears that the Samaj is not helpful to the Continuance of the school in its hall. ~~Samaj's hall~~. This hall was constructed by the Samaj with Govt aid In 1916, the Samaj applied for a grant towards the Construction of a temperance hall for holding a free reading room, a library and for holding meetings etc. Rai Bahadur Hormell the then Hony. Director of Fisheries, while recommending the sanction of grant stated that the Hall would be used for school purposes also, the Meetings of the Samaj (Temperance Meeting) including not only temperance

Para 2, pp 2-3 C

pp 3-5 of Pro. 203 Home C 15 3 17 (A) map of 3 (A)

'B' map 2 of (A)

reform, but general education, with special attention to their particular trade. The D. P. I also recommends the proposal and the Govt authorised the D. P. I to apply the provisions of the Grant-in-aid Code to the application of the Samaj for grant - vide Govt No 383 Home (Edn) of 15.3.1917.

(A) f. 8 of (A)

(A) f. 10 of (A)

(A)

The D. P. I sanctioned under Rule 53 of the Grant-in-aid Code two grants, one of Rs 750 in 1917 and the other of Rs. 1595 in 1920, but did not obtain a mortgage deed. The Govt had on the whole advanced a sum of Rs. 2345 towards the Construction of the Hall which was intended for locating a free reading room, library, for meetings and school purposes at

f. 13 of the Code (1920) has been removed

(K) in addition to (K)

f Rule 53(11) of f 13 of the Code removed

Cf. para 4, A and B of para 2 of (A)

According to rule 55 of the Grant-in-aid Code (1920), if a building for which a grant has been drawn, has been put to the expiry of ten years from the date of payment of grant, been diverted to purposes other than

f. the Code 1920 has been removed

educational purposes approved by the Govt. the Manager shall refund such portion of the grant as may be determined by Govt. Now the Secretary of the Samaj has declined to provide for the School a urinal according to sanitary arrangement and to provide additional accommodation. It also appears that the building has been used for residential purposes. The Dist. S.P.U. Deptt may be requested to consult the D.P.I in the matter and offer their remarks

I don't see how the Samaj is going to provide the addl. accommodation required for the School. If we shift the School from the present premises, the blame will not rest on the Samaj and it may be difficult to hold the Samaj responsible for not continuing the School in the hall

I further think the Director Deptt should shift to some rented building

B

the Fisheries School and bring to the notice of Edl Dept the unhelpful attitude of the Survey owing to which the School had to be moved leaving it to the Dept to take any action it considers fit with reg to the grant in aid Code.

21.10.38 S

I agree the School should be shifted to a more suitable building in a less Congested area.

It is over 20 years since the grant in aid was made to the Sama, no mortgage deed was taken we have no hold on the building and should either push up with all the inconveniences caused due to inadequate accommodation and want of sanitary arrangements or quit. and we had better quit

The D I may be asked to look for a building and report the premium required for rent & how he can meet it this year.

Edn. dept.

Although in recommending an application for a building grant for the erection of a Temperance Hall, the Director of Fisheries. (the late Sir Frederick Nicholson) mentioned in December 1916 that the Hall would be used for School purposes also, it does not appear that any such condition was laid down when the grant was sanctioned by the D.P.I; indeed no condition of any kind was tagged on to the grant in the Director's two Proceedings — pp. 9 & 10 C.F. It cannot therefore be said that the Gnanodya Samaj is bound to find accomodation for a Fisheries School. The Samaj continues to use the building for purposes of a Library and Reading Room and for its Office By using the building in this manner the Samaj should be deemed to fulfil the purpose of the grant. No action appears to be called for in this department.

(From the D.F. No. 2698-C/37-II Dt. 12.1.40).

To A.S.

The file relates to the question of construction of a new building for housing the Sri Pramodaya Fisheries School at Mangalore. The Revenue Dept: have agreed to transfer to the Fisheries Dept: a site measuring 25 cents in the Mangalore Manor, and for the purpose. The draft order placed below may be accepted in this dept.

4 para 1 of Rev. note p 16 ante

2. With reference to para 1 of the D.M. at p. 30 Cr. the D.F. has submitted plans and estimates in respect of the proposed building. The total estimated cost is Rs. 3800/- and will be met from the annual provision made under 43. d. Industries

21 p. 37 Cr

Fisheries - Fr. Fisheries Schools - Petty Construction and repair. As required by the Post-Master, Mangalore, the estimates provide for a compound wall six feet high along the western and southern sides of the plot and an entrance gate on the Eastern side. It is not however clear whether the wall will be of laterite stones. Instructions on this point as well as the maintenance of the wall by the Fisheries Dept. may be given when orders are issued.

Under the existing orders estimates of works costing over Rs 1000/- should be got scrutinised by the local P. W. D Officers. For connection with the scrutiny of a few estimates sent by the Sub. Asst. D.F (West-Coast), the Executive Engineer, Calicut, reported that the plans and estimates were not susceptible of check as soil and sub-soil particulars, pressure calculations etc. were not furnished and suggested that as the works required ~~technical~~ technical skill and professional supervision detailed plans and estimates might be prepared and the works executed by the P. W. Dept.

VI

The D. F. is not in favour of the suggestion and the matter is under consideration pending receipt of further remarks of the D. F. The present estimates amounting to Rs. 3800 have not been scrutinised by the local P. W. D. Officers. It is for consideration whether the decision of the general question referred to above may be awaited before accepting the estimates.

3. After rates are passed on para 2 above, the case may be returned to Revenue and that dept: requested to take relevant entries relating to the transfer of land and return the file to this dept:

Extracts of notes from file no. 25873 I/38- Sri Gnanodaya Fisheries School - construction of building in the Mangalore Marine Yard.

To A.S.

The file relates to the question of construction of a new building for housing the Sri Gnanodaya Fisheries School at Mangalore. The Revenue Department have agreed to transfer to the Fisheries Department a site measuring 25 cents in the Mangalore Marine Yard for the purpose. The draft order placed below may be accepted in this department.

2. With reference to para 1 of the O.M. at p. 30 C.F. the D.F. has submitted plans and estimates in respect of the proposed building. The total estimated cost is Rs. 3800/- and will be met from the annual provision mader 43 d. Industries - Fisheries. f. Fisheries Schools - Petty construction and repairs". As required by the Port Officer, Mangalor the estimates provide for a compound wall six feet high along the western and southern sides of the plot and an entrance gate on the eastern side. The Compound wall will be masonry cemented. It is not however clear whether the wall will be of laterite stones. Instructions on this point as well as the maintenance of the wall by the Fisheries Department may be given when orders are issued.

Under the existing orders estimates of works costing over Rs. 1000/- should be got scrutinised by the local P.W.D. officers. In connection with the scrutiny of a few estimates for construction of buildings in fish curing yards and for ~~fishing~~ fisheries school sent by the Sub-Assistant Director of Fisheries (West Coast), the Executive Engineer, Calicut, reported that the plans and estimates were not susceptible of check as soil and sub-soil particulars, pressure calculations etc. were not furnished and suggested

62

that as the works required technical skill and professional supervision detailed plans and estimates might be prepared and the works executed by the P.W. Department. The D.F. is not in favour of the suggestion and the matter is under consideration pending receipt of further remarks of the D.F. The present estimates amounting to Rs. 3800 have not been scrutinised by the local P.W.D. officers. It is for consideration whether decision for the general question referred to above may be awaited before accepting the estimates.

3. After orders are passed on para 2 above, the case may be returned to Revenue and that department requested to take relevant extracts relating to the transfer of land and return the file to this Department.
